It also is intended to explain the conditions under which Company uses and discloses that information, and your rights in relation to that information. Accordingly, each time you use the Website you should review any changes since the last time you used the Website.

The Website is hosted in the United States of America and is subject to U.S. state and federal law. If you are accessing our Website from other jurisdictions, please be advised that you may be viewed as transferring your personal information to us in the United States, and by using our Website, you consent to that transfer and use of your personal information in accordance with this Privacy Policy. You also agree to abide by the applicable laws of applicable states and U.S. federal law concerning your use of the Website and your agreements with us. Any persons accessing our Website from any jurisdiction with laws or regulations governing the use of the Internet (including personal data collection, use and disclosure), different from those of the jurisdictions mentioned above may only use the Website in a manner lawful in their jurisdiction. If your use of the Website would be unlawful in your jurisdiction, please do not use the Website. Further, note that your jurisdiction may offer a more limited or different level of protection with respect to the privacy of your data.

BY USING OR ACCESSING THE WEBSITE, YOU ARE ACCEPTING THE PRACTICES DESCRIBED IN THIS PRIVACY POLICY.

GATHERING, USE AND DISCLOSURE OF NON-PERSONALLY-IDENTIFYING INFORMATION

Users of the Website Generally

“**Non-Personally Identifying Information**” is information that, without the aid of additional information, cannot be directly associated with a specific person. “**Personally Identifying Information**,” by contrast, is information such as a name or email address that, without more, can be directly associated with a specific person.

Like most website operators, Company gathers from users of the Website Non-Personally Identifying Information of the sort that Web browsers, depending on their settings, may make available. That information includes the user’s Internet Protocol (IP) address, operating system, browser type and the locations of the websites the user views right before arriving at, while navigating and immediately after leaving the Website. Although such information is not Personally Identifying Information, it may be

possible for Company to determine from an IP address a user's Internet service provider and the geographic location of the visitor's point of connectivity as well as other statistical usage data. Company analyzes Non-Personally Identifying Information gathered from users of the Website to help Company better understand how the Website is being used. By identifying patterns and trends in usage, Company is able to better design the Website to improve users' experiences, both in terms of content and ease of use.

From time to time, Company may also release the Non-Personally Identifying Information gathered from Website users in the aggregate, such as by publishing a report on trends in the usage of the Website.

Web Cookies

A "**Web Cookie**" is a string of information which assigns you a unique identification that a website stores on a user's computer, and that the user's browser provides to the website each time the user submits a query to the website. We use cookies on the Website to keep track of services you have used, to record registration information regarding your login name and password, to record your user preferences, to keep you logged into the Website and to facilitate purchase procedures. Company also uses Web Cookies to track the pages that users visit during each Website session, both to help Company improve users' experiences and to help Company understand how the Website is being used. As with other Non-Personally Identifying Information gathered from users of the Website, Company analyzes and discloses in aggregated form information gathered using Web Cookies, so as to help Company, its partners and others better understand how the Website is being used. COMPANY USERS WHO DO NOT WISH TO HAVE WEB COOKIES PLACED ON THEIR COMPUTERS SHOULD SET THEIR BROWSERS TO REFUSE WEB COOKIES BEFORE ACCESSING THE WEBSITE, WITH THE UNDERSTANDING THAT CERTAIN FEATURES OF THE WEBSITE MAY NOT FUNCTION PROPERLY WITHOUT THE AID OF WEB COOKIES. WEBSITE USERS WHO REFUSE WEB COOKIES MAY LOSE FUNCTIONALITY OR USE OF CERTAIN FEATURES OF THE WEBSITE.

A "**Flash Cookie**" is a small file stored on your computer by a website that uses Adobe's Flash player technology. Flash cookies use Adobe's Flash player to store information about your online browsing activities. Flash cookies can be used to replace cookies used for tracking and advertising, because they also can store your settings and preferences. Similarly, Company can place unique HTML5 cookies within a browser's local storage to identify a user over time. When you delete or clear cookies from your browser, you will not necessarily delete the Flash cookies stored on your computer. For more information please see: <https://www.consumer.ftc.gov/articles/0042-online-tracking>

"**Device fingerprinting**" can track devices over time, based on your browser's configurations and settings. Because each browser is unique, device fingerprinting can identify your device, without using cookies. Since device fingerprinting uses the characteristics of your browser configuration to track you, deleting cookies won't help. Device fingerprinting technologies are evolving and can be used to track you on all kinds of internet-connected devices that have browsers, such as smart phones, tablets, laptop and desktop computers. For more information please see: <https://www.consumer.ftc.gov/articles/0042-online-tracking>

Third-Party Advertisers

We may use third-party advertising companies to serve ads when you visit the Website. These companies may use information about your visits to the Website and other websites that are contained in Web Cookies in order to provide advertisements about goods and services of interest to you. Using a tool created by the Network Advertising Initiative, you can opt out of several third-party ad servers' and networks' Web Cookies simultaneously. If you would like more information about this practice and to know your choices about not having this information used by these companies, please follow the instructions and links here: <http://www.networkadvertising.org/choices/> and <http://preferences-mgr.truste.com>, or <http://www.aboutads.info/choices>. Please contact us if you would like to know the identity of the third-party advertising companies we are currently using to serve ads.

We may allow advertisers to choose the characteristics of users who will see their advertisements, and we may use any of the Non-Personally Identifying Information we have collected (including information you may have decided not to show to other users, such as your birth year or other sensitive personal information or preferences) to select the appropriate audience for those advertisements. We do not identify you to the advertiser.

Web Beacons

A “**Web Beacon**” is an object that is embedded in a web page or email that is usually invisible to the user and allows website operators to check whether a user has viewed a particular web page or an email. Company may use Web Beacons on the Website and in emails to count users who have visited particular pages, viewed emails and to deliver co-branded services. Web Beacons are not used to access users' Personally Identifying Information. They are a technique Company may use to compile aggregated statistics about Website usage. Web Beacons collect only a limited set of information, including a Web Cookie number, time and date of a page or email view and a description of the page or email on which the Web Beacon resides. You may not decline Web Beacons. However, they can be rendered ineffective by declining all Web Cookies or modifying your browser setting to notify you each time a Web Cookie is tendered, permitting you to accept or decline Web Cookies on an individual basis.

Analytics

We may use third-party vendors, including Google, who use first-party cookies (such as the Google Analytics cookie) and third-party cookies (such as the DoubleClick cookie) together to inform, optimize and serve ads based on your past activity on the Website, including Google Analytics for Display Advertising. The information collected may be used to, among other things, analyze and track data, determine the popularity of certain content and better understand online activity. If you do not want any information to be collected and used by Google Analytics, you can install an opt-out in your web browser (<https://tools.google.com/dlpage/gaoptout>) and/or opt out from Google Analytics for Display Advertising or the Google Display Network by using Google's Ads help (<https://support.google.com/ad/answer/262922?hl=en>).

Aggregated and Non-Personally Identifying Information

We may share aggregated and Non-Personally Identifying Information we collect under any of the above circumstances. We may also share it with third parties and our affiliate companies to develop and deliver targeted advertising on the Website and on websites of third parties. We may combine Non-Personally Identifying Information we collect with additional Non-Personally Identifying Information collected from other sources. We also may share aggregated information with third parties, including advisors, advertisers and investors, for the purpose of conducting general business analysis. For example, we may tell our advertisers the number of visitors to the Website and the most popular features or services accessed. This information does not contain any Personally Identifying Information and may be used to develop website content and services that we hope you and other users will find of interest and to target content and advertising.

In addition, Company may make use of de-identified information in accordance with applicable privacy law.

Mobile Device Additional Terms

- **Mobile Device.** If you use a mobile device to access the Website or download any of our applications, we may collect device information (such as your mobile device ID, model and manufacturer), operating system, version information and IP address.
- **Geo-Location Information.** Unless we have received your prior consent, we do not access or track any location-based information from your mobile device at any time while downloading or using our mobile application or our services, except that it may be possible for Company to determine from an IP address the geographic location of your point of connectivity, in which case we may gather and use such general location data.
- **Push Notifications.** We send you push notifications if you choose to receive them, letting you know when someone has sent you a message or for other service-related matters. If you wish to opt-out from receiving these types of communications, you may turn them off in your device's settings.
- **Mobile Analytics.** We use mobile analytics software to allow us to better understand the functionality of our mobile software on your phone. This software may record information, such as how often you use the application, the events that occur within the application, aggregated usage, performance data and where the application was downloaded from. We do not link the information we store within the analytics software to any Personally Identifying Information you submit within the mobile application.

SOCIAL MEDIA

We may provide you the option to connect your account on the Website to your account on some social networking sites for the purpose of logging in, uploading information or enabling certain features on the Website. When logging in using your social network credentials, we may collect the Personally Identifying Information you have made publicly available on the social networking site, such as your name, profile picture, cover photo, username, gender, friends network, age range, locale, friend list and any other information you have made public. Once connected, other users may also be able to see information about your social network, such as the size of your network and your friends, including

common friends. By connecting your account on the Website to your account on any social networking site, you hereby consent to the continuous release of information about you to us. We will not send any of your account information to the connected social networking site without first disclosing that to you. Each social network may further allow you to set privacy controls around your information on their system, and our collection of information will always follow such controls and permissions. This feature is subject to continuous change and improvement by us and each social networking site involved, and therefore the available features and shared information are subject to change without notice to you.

We may use hyperlinks on the Website which will redirect you to a social network if you click on the respective link. However, when you click on a social plug-in, such as Facebook's "Like" button, Twitter's "tweet" button or the Google+, that particular social network's plugin will be activated and your browser will directly connect to that provider's servers. If you do not use these buttons, none of your data will be sent to the respective social network's plugin provider. So for example, when you click on the Facebook's "Like" button on the Website, Facebook will receive your IP address, the browser version and screen resolution, and the operating system of the device you have used to access the Website. Settings regarding privacy protection can be found on the websites of these social networks and are not within our control.

COLLECTION, USE AND DISCLOSURE OF PERSONALLY-IDENTIFYING INFORMATION

Website Registration

As defined above, Personally Identifying Information is information that can be directly associated with a specific person. Company may collect a range of Personally Identifying Information from and about Website users. Much of the Personally Identifying Information collected by Company about users is information provided by users themselves when (1) registering for our service, (2) logging in with social network credentials, (3) participating in polls, contests, surveys or other features of our service, or responding to offers or advertisements, (4) communicating with us, (5) creating a public profile or (6) signing up to receive newsletters. That information may include each user's name, address, email address and telephone number, and, if you transact business with us, financial information such as your payment method (valid credit card number, type, expiration date or other financial information). We also may request information about your interests and activities, your gender, age, date of birth, username, hometown and other demographic or relevant information as determined by Company from time to time. Users of the Website are under no obligation to provide Company with Personally Identifying Information of any kind, with the caveat that a user's refusal to do so may prevent the user from using certain Website features.

BY REGISTERING WITH OR USING THE WEBSITE, YOU CONSENT TO THE USE AND DISCLOSURE OF YOUR PERSONALLY-IDENTIFYING INFORMATION AS DESCRIBED IN THIS "COLLECTION, USE AND DISCLOSURE OF PERSONALLY-IDENTIFYING INFORMATION" SECTION.

Online Postings

Certain Personally Identifying Information collected from users may be disclosed as a matter of course as a result of your use of the Website. We may provide areas on the Website where you can post reviews and other information relating to your activities on the Website. Such postings are governed by our Terms of

Use. In addition, such postings may appear on other websites or when searches are executed on the subject of your posting. Also, whenever you voluntarily disclose personal information on publicly-viewable web pages, that information will be publicly available and can be collected and used by others. For example, if you post your email address, you may receive unsolicited messages. We cannot control who reads your posting or what other users may do with the information you voluntarily post, so we encourage you to exercise discretion and caution with respect to your personal information. **USERS ASSUME ALL RESPONSIBILITY FOR ANY LOSS OF PRIVACY OR OTHER HARM RESULTING FROM THEIR VOLUNTARY DISCLOSURE OF PERSONALLY IDENTIFYING INFORMATION.**

We may occasionally use your name and email address to send you notifications regarding new services offered by the Website that we think you may find valuable. We may also send you service-related announcements from time to time through the general operation of the service. Generally, you may opt out of such emails at the time of registration or through your account settings, though this may not opt you out of all emails, such as notices about your account, including service announcements and administrative messages.

At times, we may look across multiple users to identify problems. In particular, we may examine your Personally Identifying Information to identify users using multiple user IDs or aliases. We may compare and review your Personally Identifying Information for accuracy and to detect errors and omissions. We may use financial information or payment method to process payment for any purchases made on the Website, enroll you in the discount, rebate, and other programs in which you elect to participate, to protect against or identify possible fraudulent transactions and otherwise as needed to manage our business.

- **Employees, Contractors, and Consultants:** Some Company employees and operations contractors, and consultants may have limited access to your Personal Information in the course of providing services to you, including for the purpose of troubleshooting problems and/or resolving complaints.
